this volume is of special interest included are a wide range of classic stories including the title story jupiter five the deep range second dawn and the earliest of the splendidly comic narratives told by harry purvis for the benefit of the denizens of the white hart

global food prices have eased significantly from their record highs in the first part of 2008 as a worldwide economic downturn has gathered pace commodity markets have weakened significantly by october 2008 the un food and agriculture organization s food price index stood at 164 the same level as in august 2007 and 25 lower than the index s high of 219 in june 2008 however this does not mean that policy makers around the world can start to breathe a sigh of relief for one thing even at their somewhat diminished

levels current prices remain acutely problematic for low income import dependent countries and for poor people all over the world the world bank estimates that higher food prices have increased the number of undernourished people by as much as 100 million from its pre price spike level of 850 million

many of the stories in this collection have appeared previously in various publications

when mooses asked god to show him his glory the lord passed before him and proclaimed his name and from that name cascaded a promise of grace and love compassion and faithfulness forgiveness and slowness to anger the story is told in exodus 34 5 7 but the resonant name reverberates through the corridors of scripture michael knowles teases out the rich dimensions and implications of this name by listening carefully to exodus 34 and its biblical echoes he particularly tunes his ear to the spiritual meditations of later sages in tracing the unfolding mystery of the divine name throughout the span of israel s story he finds it startlingly resolved in the god of sinai becoming present in our midst the manifold name of god has long captivated those who trace their spiritual ancestry to abraham whether they are jewish christian or muslim this book brings this spiritual quest into dialogue with scripture and tradition and invites us to experience this god of the eternal name

despite scientific evidence that business as usual is unsustainable there is a huge and widespread inertia to greening the planet warming to ecocide considers climate change from a thermodynamic perspective and asks whether market driven organisations have carried us to the point of no return through the flawed economics of endless growth warming to ecocide begins by exploring the thermodynamic origins of climate change it demonstrates that equilibrium thermodynamics can provide full explanations for the basic processes of life such as photosynthesis and metabolism and that non equilibrium thermodynamics is close to providing an explanation for how life started armed with a solid appreciation of the power of thermodynamics the second half of warming to ecocide discusses whether multinational corporations have convinced the public that climate change is insignificant and thereby neutered any all attempts by governments to espouse environmentally friendly policies it then goes on to offer strategies whereby mankind may avoid propelling the global average temperature above the pre industrial level by more than 2 c which scientists view as a threshold presaging catastrophic run away processes

how do digital media technologies affect society and our lives through the cultural theory hypotheses of hyper modernism hyperreality and posthumanism alan n shapiro investigates the social impact of virtual augmented reality ai social media platforms robots and the brain computer interface his examination of concepts of jean baudrillard and katherine hayles as well as films such as blade runner 2049 ghost in the shell ex machina and the tv series black mirror suggests that the boundary between science fiction narratives and the real world has become indistinct science fictional thinking should be advanced as a principal mode

of knowledge for grasping the world and digitalization

a selection of what he considers to be his best short stories is presented by this leading science fiction writer
